

Approved E-Invoicing Platforms (PDP) in France

Official List from impots.gouv.fr - March 2026

What is a PDP? A Plateforme de Dematerialisation Partenaire (PDP) is a certified platform authorized by the French government to issue, transmit, and receive electronic invoices under the e-invoicing reform. These platforms have passed interoperability tests with the Public Invoicing Portal (PPF).

For SaaS developers: To build accounting/invoicing software for France, you must either: (1) Become a certified PDP, (2) Integrate with an existing PDP, or (3) Use the free government PPF portal.

#	Platform	Website	Contact Email
